Certifications : ISO 9001

ISO 9001 is a globally recognized standard for quality management systems. The ISO 9001 certification verifies that an organization has implemented a quality management system that meets the requirements of the ISO 9001 standard and is committed to ongoing improvement.

ISO 9001 certification is based on a set of quality management principles that include a strong customer focus, the involvement of top management, a process-oriented approach, and continuous improvement. Organizations that achieve ISO 9001 certification demonstrate their commitment to providing products and services of the highest quality, and to continuously improving their processes and systems.

To achieve ISO 9001 certification, an organization must undergo an extensive audit process to verify that their quality management system meets the requirements of the standard. The audit process is conducted by a third-party certification body that is accredited by a national accreditation body.

ISO 9001 certification verifies that an organization has implemented a quality management system that meets international standards and is committed to continuous improvement. It provides assurance to customers and stakeholders that the organization is dedicated to providing products and services of the highest quality.

Peers Quality Assurance Ltd Certificate of Registration

This is to certify that
AQUABELLA SHOWER CO., LTD.

Operates a Management System
which has been assessed as conforming to:

ISO 9001:2015

For the Scope of activities:

Trading and assembly of parts for domestic electrothermic appliances, such as electric water heaters

Location(s):

71/5 Moo 17, T.Bangsaothong, Bangsaothong, Samut Prakan Province, 10570, Thailand

Certificate approved by:

Certificate Number:	THA/4/6754017470
Date of Initial Assessment:	14/09/2020
Date of Registration:	25/09/2020
Date Re-Issued:	N/A
Date of Expiry:	25/09/2023

This Certificate remains the property of
Peers Quality Assurance Limited, Suite MH 20 First Floor
The Moat House, 24 Lichfield Road, Sutton Coldfield, B74 2NJ

Watermark Certificate Australia

Watermark is a certification mark in Australia for plumbing and drainage products. It is a mandatory requirement for certain plumbing and drainage products that are sold in Australia, and is used to demonstrate that a product meets the relevant Australian standards for performance and safety.

The Watermark certification program is administered by the Australian Building Codes Board (ABCB) and is based on a rigorous evaluation and testing process to verify that products meet the requirements of the relevant Australian standards.

To obtain a Watermark certificate, a product must undergo testing by an accredited laboratory and be approved by the ABCB. The certificate is valid for a specific period of time and may be renewed following periodic evaluations and testing.

The Watermark certificate is a mandatory requirement in Australia for certain plumbing and drainage products, and is used to demonstrate that a product meets the relevant Australian standards for performance and safety. The certificate provides assurance to customers and regulators that the product is of high quality and safe to use.

CERTIFICATE OF CONFORMITY

SAI Global hereby grants:

Aquabella Shower Co., Ltd

71/5 Moo 17 T.Bangsaothong, Samut Prakan Province, Thailand

WaterMark Certificate of Conformity

Evaluated to:

AS 4032.4-2014 - Water supply - Valves for the control of heated water supply temperatures - Thermostatically controlled taps for the control of heated water supply temperatures

"the WaterMark Licensee" the right to use or arrange the use of the WATERMARK as shown below only in respect of the goods described and detailed on the product schedule identified on www.saiglobal.com which are produced by the WaterMark Licensee or on behalf of the WaterMark Licensee* and which comply with the appropriate Standard referred to above as from time to time amended. The Licence is granted subject to the rules governing the use of the WATERMARK and the Terms and Conditions for certification. The WaterMark Licensee covenants to comply with all the Rules and Terms and Conditions.

This Certificate is issued by a JAS-ANZ accredited certification body. The Scheme Owner, Administering Body and Accreditation Body do not in any way warrant, guarantee or represent that the product the subject of this Certificate conforms to the WaterMark Certification Scheme Rules, nor accepts any liability arising out of the use of the product. The Scheme Owner disclaims to the extent permitted by law, all liability (including negligence) for claims of losses, expenses, damages and costs arising as a result of the use of the product(s) referred to in this Certificate.

Certificate No: WMK26655

Issued : 2 December 2021

Expires : 29 November 2026

Originally Certified : 30 November 2021

Current Certification : 30 November 2021

ICC-PMG Product Certificate

The ICC-ES PMG (International Code Council Evaluation Service - Prefabricated Modular Construction) Product Plumbing Certificate is a type of certification that verifies the quality and performance of prefabricated plumbing products used in modular construction projects. This certificate is issued by ICC Evaluation Service (ICC-ES), a leading evaluation and certification organization in the construction industry.

The ICC-ES PMG Product Plumbing Certificate indicates that the plumbing product has been tested and meets the applicable building codes and standards for plumbing systems. This certificate provides assurance to architects, engineers, builders, and building owners that the plumbing product is suitable for its intended use and offers a level of quality and safety that is essential for building projects.

By obtaining an ICC-ES PMG Product Plumbing Certificate, the manufacturer demonstrates that their plumbing product has been evaluated and meets the requirements for safety, quality, and performance in the plumbing industry. The certificate provides a level of confidence to those involved in the building process and helps to ensure that the plumbing system will function properly and safely in the finished building.

ICC-ES PMG Product Certificate

PMG-1638

Effective Date: March 2022

This listing is subject to re-examination in one year.

Compliance with the following standards:

EPA WaterSense Specification for Showerheads (Version 1.1, July 26 2018)

Identification:

Showerheads and hand-held showers shall be marked with:
(a) the manufacturer's recognized name, trademark, or other mark; or
(b) in the case of private labeling, the name, trademark, or other mark of the customer for whom the fitting was manufactured.
(c) the maximum flow rate value in gpm and L/min as specified by the manufacturer.
(d) the ICC-ES PMG listing mark
Markings shall be accomplished by use of a permanent mark or by placing a permanent label on the product. Markings shall be located in such a way that they are visible after installation.

Packaging shall be marked with:

(a) the manufacturer's recognized name, trademark, or other mark as well as the model number; or
(b) in the case of private labeling, the name, trademark, or other mark of the customer for whom the fitting was manufactured as well as the model number.
(c) the EPA WaterSense label
(d) the ICC-ES PMG listing mark

Listings are not to be construed as representing aesthetics or any other attributes not specifically addressed, nor are they to be construed as an endorsement of the subject of the listing or a recommendation for its use. There is no warranty by ICC Evaluation Service, LLC, express or implied, as to any finding or other matter in this listing, or as to any product covered by the listing.

AQUAS[®]

Water Sense USA Certificate

WaterSense is a partnership program established by the U.S. Environmental Protection Agency (EPA) with the goal of promoting water efficiency and sustainability. The WaterSense label is a certification program that identifies and promotes products that are water efficient and perform well.

The WaterSense certification program verifies that a product meets strict criteria for water efficiency and performance, and that it has been independently tested and verified by a third-party laboratory. The products that receive the WaterSense label are tested to be at least 20% more efficient than standard products, without sacrificing performance.

By obtaining the WaterSense label, the manufacturer demonstrates that their product is water efficient and helps to conserve water resources. The WaterSense label provides assurance to customers and building owners that the product will help to reduce water usage and promote sustainability.

The WaterSense label is widely recognized in the United States and is an important factor in the purchasing decisions of many customers who are looking for water-efficient products. The WaterSense label is a symbol of trust and confidence for consumers and is considered a reliable indicator of water efficiency and performance.

Replacing your old showerheads with **WATERSENSE LABELED** showerheads could save **2,700 GALLONS** per year

EPA Act On Climate

Choose WaterSense

WaterSense products are approximately 20 percent more water efficient than their counterparts. Conserving water conserves energy and reduces carbon pollution.

UBA Certificate Germany

The UBA (Federal Environment Agency) certificate is a certification program in Germany that verifies the environmental compatibility and safety of products. It is issued by the Federal Environment Agency (UBA), a government organization in Germany responsible for protecting the environment and human health.

The UBA certificate verifies that a product meets the high standards for environmental protection and safety required in Germany. This certification covers a wide range of products, including household appliances, electronics, toys, and building materials.

The UBA certification process involves rigorous testing and evaluation of products to ensure that they meet the relevant environmental and safety standards. Products that receive UBA certification have been verified to have a low environmental impact and to be safe for use.

By obtaining a UBA certificate, the manufacturer demonstrates that their product meets the high standards for environmental protection and safety required in the German market. The UBA certificate provides assurance to customers and building owners that the product is environmentally friendly and safe for use.

KTW BWGL Certificate Germany

The "KTW BWGL" certificate is likely a German water quality certification awarded by the KTW Association (Kunststoff-Technischer Fachverband e.V.) in cooperation with the Federal Health Office (Bundesgesundheitsamt - BGW). The KTW Association is a German organization that certifies products for use in contact with drinking water, and the BGW is a German federal agency responsible for protecting public health.

The "KTW BWGL" certificate confirms that a product meets certain standards for quality and safety in relation to drinking water. To earn the certification, a product must undergo testing and evaluation to ensure that it is free of harmful substances and meets other requirements.

The "KTW BWGL" certificate is important for manufacturers and suppliers of products that come into contact with drinking water, as it provides assurance to customers and regulators that their products are safe and meet the required standards. It is also an important tool for consumers who want to make informed choices about the products they use in their homes.

The "KTW BWGL" certificate is a German water quality certification that confirms that a product meets certain standards for quality and safety in relation to drinking water. It provides assurance to customers and regulators that a product is safe and meets the required standards.

Hygiene-Institut des Ruhrgebiets

Internet www.hyg.de

Reference no: Z-367420-22-Akc

Gelsenkirchen, 05.12.2022

We hereby verify that the above-mentioned company has entered a binding certification agreement with HyCert for the following products:

- hand shower
 - [A12011; A12315; A12333; A12334; A12337; 12931; A13631; A13831]
- Shower head
 - [B22013; B22711; B22811; B27311; B27411; B25311; B25219; B25218; B28415; B28414; B28413]

For these products the conformity assessment process according to the UBA recommendation for conformity attestation (as of 29.07.2021) is nearly completed.

The tests, which need to be conducted before the drinking water suitability can be confirmed by a certificate according to the previously mentioned UBA recommendation, are currently carried out.

Once all these tests have been successfully completed, we will issue COVID19 certificates for the above products, which can be used to confirm that they are suitable for drinking water until 21/03/2023, or a regular certificate that is valid for 5 years from the date of issue.

The Director of the Hygiene-Institute
on behalf of

Dr. rer. nat. Andreas Koch
Head of Certification body HyCert

AQUAS®

TISI Thailand Certificate

TISI (Thai Industrial Standard Institute) is a government organization in Thailand that is responsible for establishing, developing, and promoting industrial standards in the country. The TISI certified mark is a symbol of quality and safety assurance for products manufactured in Thailand.

The TISI certification process involves rigorous testing and evaluation of products to ensure that they meet the relevant Thai industrial standards for quality, safety, and performance. Products that receive TISI certification have been verified to meet the standards for their specific category, such as electrical appliances, building materials, or automotive parts.

By obtaining a TISI certification, the manufacturer demonstrates that their product meets the high standards for quality, safety, and performance required in the Thai market. The TISI certified mark provides assurance to customers and building owners that the product is safe and suitable for use.

The TISI certification is widely recognized in Thailand and is an important factor in the purchasing decisions of many Thai customers. Products that have received TISI certification are considered to be of high quality and reliable, and the TISI certification is a symbol of trust and confidence for Thai consumers.

AQUAS®

Company Story

A FAMILY RUN BUSINESS WITH OVER 25 YEARS OF
SHOWER INNOVATION EXPERIENCE COMBINED WITH

 SWISS PRECISION ENGINEERING

We are a leading shower innovator, our top priority in everything we do is in providing our customers with premium quality and ultra-modern shower innovations. Aquas' designs are a reflection of the sensational landscape from which we hail. Inspired by the refreshing and revitalizing sensations of the Swiss Alps we have curated a range of shower solutions that guarantee a shower like you have never had before. We are based in Bangkok, Thailand and are honored to be working with a number of outstanding distributors helping us to spread our creativity and ingenuity to bathrooms across the globe.

From the conception phases to final articulations we handle all of our products with care and top craftsmanship to guarantee that they deliver a shower experience like no other. Handcrafted, starting with the best raw materials and then finished by testing every piece. Our seamless design processes and the generations of knowledge result in a customizable collection of shower fixtures that will completely revolutionize your bathroom.

Our distinctive shower designs elevate your shower both in functionality and style. Featuring sleek and sophisticated form, Aquas showers completely modernize and uplift any tired bathroom environment. Choose from several finish options to create a bespoke shower that is the way you want it. All to say that they not only look amazing, but our exclusive technologies will have you hooked and make it difficult for you to leave your shower every time you step into it.
